

FRAUNHOFER GROUP FOR DEFENSE AND SECURITY VVS

**10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE
BERLIN, SEPTEMBER 15–17, 2015**

PROGRAM

INTRODUCTION

Free but secure

Great social, scientific, and technical efforts are needed to make this statement a reality. In liberal societies especially in industrialized nations, human activities are numerous and closely intertwined. Complex technical, business and social infrastructures, whose safety and security must be ensured, are the essential basis for this. How can you ensure individual people and society as a whole are safe and secure without abridging the freedom of the individual?

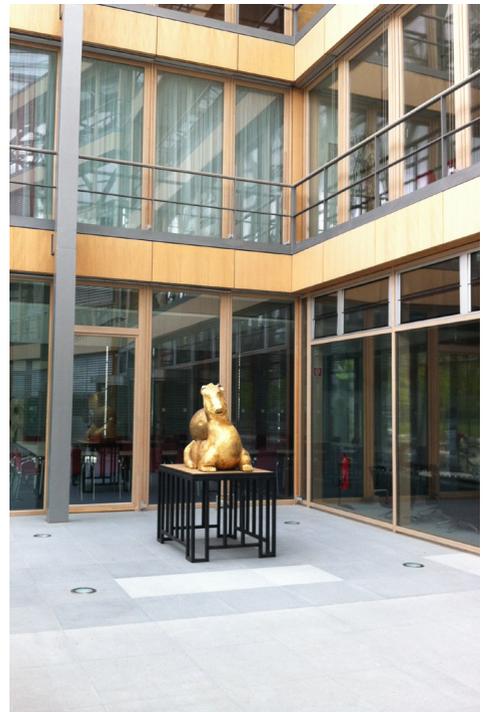

An answer can be found only in the cross-discipline collaboration of researchers from the natural sciences, engineering, human, and social sciences. Ensuring safety and security in a socio-economic and socio-technical context refers to complex systems and requires a holistic perspective to integratively merge contributions from various disciplines.

The Conference **“Future Security”** is an interdisciplinary, international exchange platform for scientists and experts from research, industry and authorities and provides direct insight into current security research projects.

VENUE

Permanent Representation of North Rhine-Westphalia to the Federal Republic of Germany

Hiroshimastrasse 12-16
10785 Berlin-Tiergarten, Germany

FOREWORD

BY THE CHAIRMAN OF THE
10TH FUTURE SECURITY
CONFERENCE

Welcome to the Future Security Research Conference 2015.

Security research is primarily research for the benefit of society. Security research is dealing with vulnerabilities and risks – terrorist attacks, natural hazards, crime or accidents – to society, especially in an urban environment, and critical infrastructures like transport, energy, food supply, information technologies, etc. Therefore, security research deals with methods and technologies to analyze, and minimize the risks, to improve crisis management, and to increase the resilience of infrastructures and society. In doing so, ensuring privacy and freedom is essential.

The institutes of the Fraunhofer Group for Defense and Security VVS have organized the annual Future Security Conference since 2006. 2015 marks the 10th anniversary of the series. This year, the Future Security Conference is organized by the Fraunhofer Institute of Optronics, System Technologies and Image Exploitation IOSB. The conference series has been established as an important platform for the discussion

of future security research needs. It is an interdisciplinary international exchange platform for scientists and experts from research, industry, and authorities, and it provides direct insight into current security research projects.

We are proud to welcome renowned participants from all over the world as our guests. Many thanks go to the Permanent Representation of North Rhine-Westphalia in Berlin, which hosts the conference for the fourth time now. I would also like to thank the Program Committee, who peer-reviewed all submitted papers. Thank you to all of you who are attending this conference and contributing to its success.

I am looking forward to a successful and inspiring conference.

A handwritten signature in blue ink, appearing to read 'J. Beyerer', with a stylized flourish at the end.

Jürgen Beyerer
Chairman of the Future Security 2015

WELCOME MESSAGE

Welcome message from State Secretary at the Federal Ministry of Defence, Dr. Katrin Suder

Celebrating ten years of “Future Security Conferences” is an opportunity to link future prospects to a look back at the past. When the Conferences were first established, the international security landscape was heavily dominated by the threat of international terrorism: 9/11, and the Madrid and London bombings underscored the potentially catastrophic and disruptive effects terrorist groups could have on Western societies. This raised some hard questions and challenged conventional wisdom on security affairs.

Perhaps unsurprisingly, the “Future Security Conference” was launched around that time, under joint patronage from the Federal Ministry of Defence and the Federal Ministry of Education and Research. At the time, some considered this to be a daring step – linking defence research with (civilian) security research was still largely uncharted territory.

Ten years later, the international security environment has further evolved. Some features remain, while others have newly emerged (or reemerged) – including asymmetric conflicts,

health pandemics and hybrid conflicts amplified by the social media revolution. All in all, the international security environment has grown considerably more multi-faceted, complex and thus more challenging. Indifference is not an option.

Germany has been increasingly willing and able to shoulder more international responsibility – not at least as our international allies and partners demand our active involvement in securing international peace and stability. Yet, to meet today’s and tomorrow’s security challenges, we need to invest in both our human and material resources. In this endeavour, technology can be a key-enabler to ensure and increase our effectiveness. This is especially true as information technology increasingly becomes a dominant feature of modern societies.

Against this background, I hope this conference will provide a stimulating, thought-provoking platform, on which today’s and tomorrow’s security themes are discussed and new and innovative solutions are developed.

**Welcome message
from the Federal Ministry of Education
and Research, Prof. Dr. Wolf-Dieter Lukas**

For almost a decade the Future Security Conference has been an indispensable platform for the international and interdisciplinary exchange of information in this field. It brings together researchers from around the world as well as experts from industry and end user groups who come together to discuss current developments in the area of civil security research.

In January of this year, 17 people were killed in terrorist attacks in France. In Germany a cycle race in Frankfurt and various other major events had to be canceled at short notice this year because of bomb threats.

This does not only remind us of the current threat level, but also shows that uncertainties and insecurities can seriously limit our freedom and that threats do not stop at national borders.

Many security measures are only effective if they are implemented transnationally. Security is an international concern, therefore forming international research alliances and

helping to shape the European security architecture is a key issue for security research.

The motto for this year's Future Security Conference is „Free but secure“. The Fraunhofer-Gesellschaft thus is highlighting the complex balance between security and freedom, and between national and international solutions to security issues. I hope that the Conference will inspire new insights and interesting discussions.

PROGRAM COMMITTEE

- Prof. Dr. Oliver Ambacher, Fraunhofer IAF
- Dr. Richard Arning, SES Satellite Leasing Ltd
- Prof. Dr.-Ing. habil. Jürgen Beyerer, Fraunhofer IOSB
- Dr. Antje Bierwisch, Fraunhofer ISI
- Gerhard Coors, Federal Ministry for Defence BMVg
- Prof. Dr. Claudia Eckert, Fraunhofer AISEC
- Prof. Dr. Peter Elsner, Fraunhofer ICT
- Prof. Dr. Joachim Ender, Fraunhofer FHR
- Dr. E. Anders Eriksson, FOI – Swedish Defence Research Agency
- Achim Friedl, Federal Ministry of the Interior BMI
- Dr. Ludwig Frühauf, German Police University
- Dr. Jürgen Geisler, Fraunhofer IOSB
- Prof. Dr. Hans-Joachim Grallert, Fraunhofer HHI
- Dr. Matthias Grüne, Fraunhofer INT
- Prof. Dr. Albert Heuberger, Fraunhofer IIS
- Dietmar Hilke, Thales
- Dr. Rüdiger Klein, Fraunhofer IAIS
- Andreas Könen, Federal Office for Information Security BSI
- Rüdiger Koppe, Airbus Defence and Space
- Dr. Horst Krause, Fraunhofer ICT
- Prof. Dr. Dr. Michael Lauster, Fraunhofer INT
- Dr. Tobias Leismann, Fraunhofer EMI
- Tijen-Khoen Liem, European Commission
- Peter Löffler, Siemens Switzerland Ltd.
- Prof. Dr. Peter Martini, Fraunhofer FKIE
- Sadhbh McCarthy, Centre for Irish and European Security CIES
- Dr. Andreas Meissner, Fraunhofer IOSB
- Dr. Karsten Michael, Federal Office of Civil Protection and Disaster Assistance BBK

10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE
BERLIN, SEPTEMBER 15-17, 2015

- Prof. Dr. Jörn Müller-Quade, Karlsruhe Institute of Technology KIT
- Dr. Harald Olschock, Association of German Private Security Industry (BDSW)
- Dr. Stefan Pickl, University of the German Federal Armed Forces - UBW Munich
- Dr. Wolfgang Rosenstock, Fraunhofer INT
- Prof. Dr. Christopher Schlick, Fraunhofer FKIE
- Prof. Dr. Viola Schmid, TU Darmstadt
- Gunther Schwarz, BDSV, Airbus Defence and Space
- Dr. Michael Suhrke, Fraunhofer INT
- Prof. Dr. Klaus Thoma, Fraunhofer EMI
- Thomas Tscherisch, Deutsche Telekom AG
- Prof. Dr. Markus Ullmann, Federal Office for Information Security BSI
- Dr. Marcel van Berlo, TNO
- Norbert Weber, Federal Ministry of Defence BMVg
- Dr. Karin Wey, VDI Technologiezentrum GmbH

TIMETABLE

TUESDAY, SEPTEMBER 15, 2015				
Time	Room	Europasaal	Saal Westfalen	Saal Rheinland
9:00 – 9:45		<p>Welcome and Opening</p> <p>Jürgen Beyerer (Fraunhofer IOSB / VVS) Katrin Suder (German Federal Ministry of Defence BMVg) Wolf-Dieter Lukas (German Federal Ministry of Education and Research BMBF) Volker Meier (Permanent Representation of NRW to the Federal Republic of Germany) Georg Wilhelm Adamowitsch (Federation of German Security & Defence Industries BDSV)</p>		
9:45 – 10:15		<p>Keynote</p> <p>Privacy and Data Protection - An EU perspective</p> <p>Udo Helmbrecht (European Union Agency for Network and Information Security ENISA)</p>

10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE
BERLIN, SEPTEMBER 15-17, 2015

TUESDAY, SEPTEMBER 15, 2015

09:00 – **EUROPASAAL**
09:45 **WELCOME AND OPENING**

Prof. Dr.-Ing. habil. Jürgen Beyerer

Conference Chair

Chairman Fraunhofer Group for Defense and Security VVS

Director Fraunhofer IOSB

Professor Karlsruhe Institute of Technology KIT

Dr. Katrin Suder

State Secretary German Federal Ministry of Defence BMVg

Prof. Dr. Wolf-Dieter Lukas

Director Key Technologies - Research for Innovation,

German Federal Ministry of Education and Research BMBF

Volker Meier

Director Permanent Representation of North Rhine-Westphalia
to the Federal Republic of Germany

Georg Wilhelm Adamowitsch

Director Federation of German Security & Defence Industries BDSV

09:45 – EUROPASAAL

10:15 KEYNOTE

PRIVACY AND DATA PROTECTION - AN EU PERSPECTIVE

Udo Helmbrecht

European Union Agency for Network and Information Security ENISA

Prof. Dr. Udo Helmbrecht has more than 35 years of professional management experience in the IT sector.

Udo Helmbrecht was born in 1955, in Castrop-Rauxel, North Rhine-Westphalia, Germany. He studied Physics, Mathematics and Computer Science at Ruhr-University, Bochum, and in 1984 he was awarded a PhD in Theoretical Physics. In 2010 Udo Helmbrecht was appointed honorary professor at the Universität der Bundeswehr Munich, Germany.

His experience in the field of security has been acquired through work in a variety of areas, including the energy industry, insurance, engineering, aviation, defence, and the space industry. He became the president of the German Federal Office for Information Security (BSI) in 2003.

Udo Helmbrecht took office as Executive Director of the European Union Agency for Network and Information Security (ENISA) in October 2009.

10:15 – EUROPASAAL

11:45 PANEL

**DO LAW, HUMANITIES AND SOCIAL
SCIENCES NEED MORE PRAGMATISM
TO KEEP UP WITH THE HIGH SPEED OF
TECHNOLOGICAL DEVELOPMENTS?**

Moderator: **Klaus Vieweg**, University of Erlangen-Nürnberg

Sabine Leutheusser-Schnarrenberger

Former German Federal Minister of Justice

Marina Martínez-García

Spanish Office of Science and Technology

Stefan Weisgerber

German Institute for Standardization DIN

Martina Link

German Federal Criminal Police Office - Bundeskriminalamt BKA

Heinz Gerhäuser

Fraunhofer IIS

13:10 – EUROPASAAL

14:35 ① **USABLE SECURITY AND PRIVACY**

INVITED SESSION

Chairs:

Matthew Smith (University of Bonn),

Peter Martini (Fraunhofer FKIE)

Rule breakers, excuse makers, and security champions: profiling staff to target security communications

Angela Sasse (UCL)

User factors in mobile security and privacy perception and behavior

Sebastian Möller (Telekom Labs)

Trust Agility for User-Selectable Trust Roots in a Future Internet

Adrian Perrig (ETH Zürich)

Frontiers of Usable Security: Libraries, APIs and Developers

Matthew Smith (Fraunhofer FKIE and Univ. of Bonn)

13:10 –
14:35

SAAL WESTFALEN

② VOLUNTEERING AND CROWD INFORMATION SOURCING

Chairs:

Heiko Werner (German Workers' Samaritan Federation ASB),
Caroline Schweitzer (Fraunhofer IOSB)

Inter-organisational Cooperation for the Professional Integration of Volunteers in Crisis Management

Wolf Engelbach (Fraunhofer IAO) et al.

Crowd Tasking - Realising the Unexploited Potential of Spontaneous Volunteers

Christian Flachberger (Frequentis AG) et al.

Experimenting towards Civil Society Resilience

Wolf Engelbach (Fraunhofer IAO) et al.

Communication Technologies in Disaster Situations: Heaven or Hell?

Daniel Auferbauer (AIT Austrian Institute of Technology GmbH) et al.

13:10 –
14:35

SAAL RHEINLAND

③ SITUATIONAL AWARENESS

Chairs:

Peter Loeffler (Siemens),

Elisabeth Peinsipp-Byma (Fraunhofer IOSB)

German efforts on establishing a Space Situational Awareness capability

Kay Pixius (BAAINBw) et al.

Synthetic Biology - the next „DUAL USE“ RISK !/?

Annika Vergin (Planungsamt der Bundeswehr) et al.

Enhanced Maritime Traffic Picture for the Canadian Arctic

Giulia Battistello (Fraunhofer FKIE) et al.

NEST-CrowdControl - Advanced Video-based Crowd Monitoring for Large Public Events

Eduardo Monari (Fraunhofer IOSB) et al.

14:35 – ATRIUM

15:35 POSTER SESSION

15:35 – EUROPASAAL

17:00 ④ SECURITY AND PRIVACY FOR
PRACTICAL APPLICATIONS

Chairs:

Mario Strefler (Karlsruhe Institute of Technology KIT),
Erik Krempel (Fraunhofer IOSB)

SECURUS - A Provable Secure Database Outsourcing Scheme

Tobias Nilges (Karlsruhe Institute of Technology KIT) et al.

**Privacy Score: Making privacy aspects of surveillance
systems comparable**

Erik Krempel (Fraunhofer IOSB) et al.

On the Security of Public Cloud Storage

Steffen Müller (Karlsruhe Institute of Technology KIT) et al.

**Graphical Model-based Privacy Policy Editing for Smart
Video Surveillance**

Pascall Birnstill (Fraunhofer IOSB) et al.

15:35 –

SAAL WESTFALEN

17:00

**⑤ SENSORS AND SENSOR DATA
EXPLOITATION 1: LASER AND
OPTICAL IMAGE ANALYSIS**

Chairs:

Reinhard Ebert (Fraunhofer IOSB),

Frank Fuchs (Fraunhofer IAF)

Advanced laser-based imaging technologies for situational awareness in unmanned vehicles

Bernd Michael Fischer (French-German Research Institute of Saint-Louis ISL) et al.

A fast Hyperspectral Laser Induced Fluorescence application for standoff detection and online classification of biological hazardous materials

Frank Duschek (German Aerospace Center) et al.

Wake-up mode camera system to detect unauthorized persons and vehicles

Pasi Pyykönen (VTT Technical Research Centre of Finland) et al.

Results from 3D-Forensics - Mobile high-resolution 3D-Scanner and 3D data analysis for forensic evidence

Stephen Crabbe (Crabbe Consulting Ltd.) et al.

15:35 – SAAL RHEINLAND

17:00 ⑥ CRISIS MANAGEMENT

Chairs:

Leonard Reindl (IMTEK),

Merle Missoweit (Fraunhofer INT)

Technical-socio-economic model of the Urban Crises Management System for grid-bound Infrastructures (UCMS) to increase the urban resilience, and to minimize consequential damages

Christoph Stroschein (GESI Deutsche Gesellschaft für Systeminnovation mbH) et al.

Challenges for the Use of Information technology and Standards in International Disaster Management

Lina Jasmontaite (KU Leuven) et al.

Collaboration in Crisis Management - Learning from the Transportation Domain

Christian Flachberger, Thomas Obritzhauser (Frequentis AG) et al.

Analysing organisational, legal, and political framework conditions to support the implementation of new crisis management solutions

Maike Vollmer (Fraunhofer INT) et al.

17:00 – ATRIUM

20:00 WELCOME RECEPTION

WEDNESDAY, SEPTEMBER 16, 2015

09:00 – EUROPASAAL

10:25 ⑦ **PRIVACY CONCERNS AND
LEGAL ASPECTS**

Chairs:

Viola Schmid (TU Darmstadt),
Andreas Meissner (Fraunhofer IOSB)

**Resolving the privacy and security trade-off - Contributions from
participatory involvement of citizens**

Jaro Krieger-Lamina (Austrian Academy of Sciences) et al.

European attitudes towards Internet security and privacy

Sunil Patil (RAND Europe) et al.

**The Complexity of Security Dimensions: A Comparison of the
North-West and South-East European Regions**

Ksenia Chmutina (Loughborough University),
Andrew Dainty (Loughborough University) et al.

Legal challenges of fighting botnets: a law enforcement perspective

Karine e Silva (Tilburg University)

09:00 – SAAL WESTFALEN

**10:25 ⑧ SENSORS AND SENSOR DATA
EXPLOITATION 2: SMART
VIDEO SURVEILLANCE**

Chairs:

Berthold Stoppelkamp (Assoc. of German Private Security Industry BDSW),
Markus Müller (Fraunhofer IOSB)

**A Multi-Sensor Technology for improving Security at Complex
Scenarios with increased Risk of Violence**

Frank Pagel (Fraunhofer IOSB) et al.

**Camera technology for behavioural profiling at Amsterdam
Airport Schiphol**

Eddy Zwier (TNO) et al.

**Knowledge-based situational analysis of unusual events in
public places**

David Münch (Fraunhofer IOSB) et al.

**Acoustic Event Source Localization Supporting a Video
Surveillance System**

Peter Transfeld (Technical University of Braunschweig) et al.

09:00 – SAAL RHEINLAND

10:25 ⑨ RAIL TRANSPORTATION: RISK AND CONTROL OF COMPLEX NETWORK THREATS

Chairs:

Silja Meyer-Nieberg (Bundeswehr University Munich),

Stefan Pickl (Bundeswehr University Munich)

A Transparent Approach for Prioritising Security Measures

Tim Müller (Karlsruhe Institute of Technology KIT) et al.

Conceptual Framework for Evaluation of the Effectiveness of Intelligent Security Measures in Public Transportation through a Multi-Agent-Simulation Data Farming Experiment to prevent Terrorist Attacks

Holger Bracker (Airbus Defence and Space GmbH) et al.

Exploring Data Analysis Techniques for Threat Estimation

Matthias Dehmer (Bundeswehr University Munich) et al.

Aspects of Quantitative Analysis of Transportation Networks

Matthias Dehmer (Bundeswehr University Munich) et al.

10:55 – EUROPASAAL

12:20 ⑩ CYBER SECURITY

Chairs:

Andreas Könen (BSI),

Peter Martini (Fraunhofer FKIE)

Cyber Threats: Introducing a Risk Management Framework for Cyber Security in Critical Infrastructure Protection

Silja Meyer-Nieberg (Bundeswehr University Munich) et al.

Decision-making criteria for cyber security adoption: Internet of things cyber security issues

Alexander Wiesmaier (AGT International) et al.

ParasiteEx: Disinfecting Parasitic Malware Platform-Independently

Thomas Barabosch (Fraunhofer FKIE) et al.

10:55 – SAAL WESTFALEN

**12:20 ⑪ SENSORS AND SENSOR DATA
EXPLOITATION 3: DETECTING
EXPLOSIVES**

Chairs:

Hermann Ries (Smiths Heimann),

Horst Krause (Fraunhofer ICT)

**Explosive material detection through analysis of Infrared and
RAMAN Spectrums captured by a portable sensor**

Hichem El Mokni (Fraunhofer FKIE) et al.

**Synthesis and test of suitable adsorbers for selectively trapping
and detecting explosives and improvised explosives precursors
from gasphase**

Gudrun Bunte (Fraunhofer ICT)

**Localisation of IED Manufacturing Facilities by Detection of
Explosives in Sewage Water**

Frank Schnürer (Fraunhofer ICT) et al.

**Standoff trace detection of explosives with active Infrared
Hyperspectral Imagery**

Frank Fuchs (Fraunhofer IAF) et al.

10:55 – SAAL RHEINLAND

**12:20 ⑫ SYSTEM ENGINEERING,
ASSESSMENT AND MODELING**

Chairs:

Dietmar Hilke (Thales),

Birger Krägelin (Fraunhofer IOSB)

Ubicity - Conquering Crisis and Disaster Management Challenges with Big Data Analytics

Jasmin Pielorz (AIT Austrian Institute of Technology GmbH) et al.

**Experimentation campaigns for assessing security solutions:
Case Studies from FP7**

Christian Carling (Swedish Defence Research Agency) et al.

**A quantitative risk model for a uniform description of safety
and security**

Jürgen Beyerer (Fraunhofer IOSB) et al.

Improving the Border Control Process by Queue Length Optimization

Gunther Grasemann (Fraunhofer IOSB) et al.

13:30 – EUROPASAAL

14:00 KEYNOTE

TECHNOLOGY STRATEGY AND EXISTENTIAL RISK

Nick Bostrom
University of Oxford

Nick Bostrom is Professor in the Faculty of Philosophy at Oxford University. He is the founding Director of the Future of Humanity Institute, a multidisciplinary research center which enables a few exceptional mathematicians, philosophers, and scientists to think carefully about global priorities and big questions for humanity.

Bostrom has a background in physics, computational neuroscience, and mathematical logic as well as philosophy. He is the author of some 200 publications, including *Anthropic Bias* (Routledge, 2002), *Global Catastrophic Risks* (ed., OUP, 2008), *Human Enhancement* (ed., OUP, 2009), and the academic book *Superintelligence: Paths, Dangers, Strategies* (OUP, 2014), which became a New York Times bestseller. He is best known for his work in five areas: (i) existential risk; (ii) the simulation argument; (iii) anthropics (developing the first mathematically explicit theory of observation selection effects); (iv) impacts of future technology; and (v) implications of consequentialism for global strategy.

He is recipient of a Eugene R. Gannon Award (one person selected annually worldwide from the fields of philosophy, mathematics, the arts and other humanities, and the natural sciences). He has been listed on Foreign Policy's Top 100 Global Thinkers list; and he was included on Prospect magazine's World Thinkers list, the youngest person in the top 15 from all fields and the highest-ranked analytic philosopher. His writings have been translated into 24 languages. There have been more than 100 translations and reprints of his works.

14:00 – EUROPASAAL

15:30 **PANEL**

10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE
BERLIN, SEPTEMBER 15-17, 2015

CONFERENCE DINNER

WEDNESDAY, SEPTEMBER 16, 2015

18:30 – CONFERENCE DINNER **23:00 SCENIC BOAT TRIP**

Come on board and discover Berlin in a completely different way. Experience a great sightseeing tour on the river Spree through the historic center:

- Eastside Gallery
- Bellevue Castle
- Reichstag
- Museum Island
- Nikolaiviertel
- City Palace and a lot more!

A special highlight will be the conference dinner, with fine dining and an entertaining evening program - all included in your registration fee. Transportation to the boat and back is arranged.

DINNER LOCATION

Stern und Kreisschiffahrt GmbH

Märkisches Ufer
10179 Berlin, Germany

A detailed location plan can be found in your conference folder.

10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE

THURSDAY, SEPTEMBER 17, 2015

09:00 – EUROPASAAL

09:30 KEYNOTE

VIDEO SURVEILLANCE IN FRANCE: RECENT DEVELOPMENTS AND CHALLENGES

Thierry Hartmann
French Ministry of the Interior

Professional Experience

September 2011 – September 2015

Police Attaché at French Embassy in Berlin

October 2007

Assistant Director of public security : Bas-Rhin Department – Strasbourg

2003 – 2007

Technical advisor, Office of General Director of National Police : Paris

February 2003 – June 2003

Police Attaché in Geneva : G8 Evian summit framework

1996 – 2003

Head of operational management department /public security direction for Bas-Rhin Department

1994 – 1996

Assistant Director of public security for Territoire de Belfort Department

1989 – 1994

Head of criminal police department in Mulhouse

1988 – 1989

Head of crime repression brigade : criminal investigation dep. in Strasbourg

1981 – 1984

Institute for political studies in Strasbourg

09:30 – EUROPASAAL
11:00 **PANEL**
FREE BUT SECURE:
THE POWER OF BIG DATA

Moderator: **Indra Spiecker**, University of Frankfurt

Prototype overcoming Duty Cycling in Wireless Sensor Networks**

Timo Kumberg (University of Freiburg) et al.

**Realtime Detection and Mitigation of CBRN related
Contamination Events of Drinking Water**

Jürgen Moßgraber (Fraunhofer IOSB) et al.

SAWSOC: Situation Aware Security Operations Center

Claudio Porretti (SELEX ES) et al.

11:30 – SAAL WESTFALEN

**12:35 ⑰ CAPITAL RESEARCH AND INNOVATION
AGENDA FOR PRIVACY AND
TECHNOLOGY CHALLENGES**

Chairs:

Mari Kert (European Organisation for Security EOS),

Christoph Bier (Fraunhofer IOSB)

SPECIAL SESSION

With modern technologies evolving, threats follow and cyber-attacks become more and more sophisticated. CAPITAL is a two year project that aims to deliver a pan-European Research and Innovation Cyber-Security Agenda, which will tackle these growing issues. The project promotes a common approach, including existing initiatives and taking under consideration agendas that already exist in cyber topics.

Strongly recommending a citizen centric approach, CAPITAL not only looks into topics currently in need for solutions, but envisages a strategy that will include likely topics of the future. Socio-economic issues, which derive from cyber-attacks, are a focus area, as they affect citizens the most. The CAPITAL session is an opportunity for conference participants to liaise with the CAPITAL project team.

11:30 – SAAL RHEINLAND

12:35 ⑱ RESILIENCE 2

Chairs:

Antje Bierwisch (Fraunhofer ISI),

Jörg Feldmann (Fraunhofer FOKUS)

**Risk-based resilience quantification and improvement
for urban areas**

Kai Fischer (Fraunhofer EMI) et al.

**Assessing Passenger Flows and Security Measure
Implementations in Public Transportation Systems**

Martin Zsifkovits (Bundeswehr University Munich) et al.

13:40 – EUROPASAAL

14:40 PANEL

**BRIDGING THE GAP BETWEEN
SCIENCE AND PRACTITIONERS**

Moderator: **Ortwin Neuschwander**, Fraunhofer FOKUS

Jürgen Beyerer

Fraunhofer IOSB / VVS

Frank Hachemer

Fire Service Association Rheinland-Pfalz

Thierry Hartmann

French Ministry of the Interior

Wolf Junker

German Federal Ministry of Education and Research BMBF

Gregor Lehnert

Association of German Private Security Industry BDSW

Matthias Max

German Red Cross

14:40 – EUROPASAAL

15:00 CLOSING REMARKS

Jürgen Beyerer (Fraunhofer IOSB / VVS)

POSTERS

- P 1** **EXPEDIA - A new EU project aiming to reduce threats from homemade explosives**
Thomas Keicher (Fraunhofer ICT); Sven Hafner (Fraunhofer ICT); Horst Krause (Fraunhofer ICT); Henric Östmark (Swedish Defence Research Agency); Malin Kölhed (Swedish Defence Research Agency); Patrik Krumlinde (Swedish Defence Research Agency)
- P 2** **Metal Organic Frameworks as selective preconcentrator material for gas-phase sensing**
Max Rieger (Fraunhofer ICT); Moritz Heil (Fraunhofer ICT); Jürgen Hürttlen (Fraunhofer ICT); Frank Schnürer (Fraunhofer ICT); Gudrun Bunte (Fraunhofer ICT); Horst Krause (Fraunhofer ICT)
- P 3** **Face- and appearance-based person identification for forensic analysis of surveillance videos**
Christian Herrmann (Fraunhofer IOSB); Jürgen Metzler (Fraunhofer IOSB); Dieter Willersinn (Fraunhofer IOSB); Jürgen Beyerer (Fraunhofer IOSB)
- P 4** **CairGoLution - Real time transparency of the air freight supply chain**
Tobias Seidler (Fraunhofer SCS); Konstantin Tigkos (Fraunhofer IIS)
- P 5** **Towards A Mobile Context-sensitive Framework For Interoperability And Improved Situational Awareness In Crisis And Emergency Management**
Ravi Coote (Fraunhofer FKIE); Kellyn Rein (Fraunhofer FKIE); Markus Esch (Fraunhofer FKIE); Ulrich Schade (Fraunhofer FHG)

- P 6** **An Adaptive Data-Centric Infrastructure For Big Data Type Collection Applications In Restricted Environments**
Sandro Leuchter (Rhine-Waal University of Applied Sciences)
- P 7** **Development of X-ray signature comparison to increase air freight security**
Konstantin Tigkos (Fraunhofer IIS); Ulf Haßler (Fraunhofer IIS);
Frank Sukowski (Fraunhofer IIS, Germany); Tobias Seidler (Fraunhofer SCS);
Theobald Fuchs (Fraunhofer IIS)
- P 8** **Privacy Aware Modular Video Analytics**
Martin Boyer (AIT Austrian Institute of Technology);
Stephan Veigl (AIT Austrian Institute of Technology)
- P 9** **Characteristics and survival of *Bacillus cereus* in spices**
Hendrik Frentzel (Federal Institute for Risk Assessment); Mai Dinh Thanh
(Federal Institute for Risk Assessment); Gladys Krause (Federal Institute
for Risk Assessment); Juliane Bräunig (Federal Institute for Risk Assessment);
Bernd Appel (Federal Institute for Risk Assessment);
Anneluise Mader (Federal Institute for Risk Assessment)
- P 10** **Towards Privacy in Monitored Shared Environments**
Kaibin Bao (Karlsruhe Institute of Technology KIT); Thomas Bräuchle (Karlsruhe
Institute of Technology KIT); Hartmut Schreck ((Karlsruhe Institute of Technology KIT))
- P 11** **Analysing Radargrams and Sonargrams by Biological Inspired Signal Processing Methods to Optimize the Detection of Mines and Dumped Ammunition**
Matthias Reuter (CUTEC Institute GmbH); Sabine Bohlmann (CUTEC Institute GmbH)

- P 12** **Safety & Security Management System in Public Transport**
Slavomira Vargova (Technical University of Kosice);
Juraj Sinay (Technical University of Kosice)
- P 13** **SCINTILLA - a European Project for Nuclear Security**
Sebastian Chmel, Wolfram Berky, Thomas Brall, Hermann Friedrich,
Jeannette Glabian, Theo Köble, Monika Risse, Wolfgang Rosenstock,
Olaf Schumann (Fraunhofer INT); Guillaume Sannie, Stéphane Normand,
Guillaume Montemont, Olivier Monnet, Sylvain Stanchina (Commissariat à l'énergie
atomique et aux énergies alternatives); Paolo Peerani, Hamid Tagziria (European
Commision, Joint Research Centre); Raffaella De Vita, Erica Fanchini (Istituto
Nazionale di Fisica Nucleare); Gabriele Firpo, Enrico Botta (Ansaldo Nucleare S.P.A);
András Kovács, László Lakosi (Hungarian Academy of Sciences, Centre for Energy
Research); Christian Baumhauer, Tiphaine Deheunynck, Elizabeth Haddad (ARTTIC);
Grégoire Petrossian, Romain Fossé (SAPHYMO); Grant Crossingham,
Geraint Dermody, Andrew Price (Symetrica Security Ltd)
- P 14** **Protection of Smart Grids and IoT in the Wake of the 4th Industrial
Revolution (Industry 4.0)**
Feliks Vainik (e*Message W.I.S. GmbH)
- P 15** **Generic Integrated Forensic Toolbox for CBRN incident - GIFT**
Andrew Johnston (Falcon Communications)
- P 16** **Automatic detection of objects with multistatic millimeter wave imaging technology**
Athanasios Karamalis (Rohde & Schwarz GmbH & Co. KG)

- P 17** **Improvement of optical and acoustical technologies for the protection of camps or mobile troops: Project IMOTEP**
Sébastien Hengy (French-German Research Institute of Saint-Louis);
Martin Laurenzis (French-German Research Institute of Saint-Louis);
Bernd Michael Fischer (French-German Research Institute of Saint-Louis);
Pierre Naz (French-German Research Institute of Saint-Louis);
Véronique Zimpfer (French-German Research Institute of Saint-Louis)
- P 18** **SECTOR: Secure Common Information Space for the Interoperability of First Responders**
Jana Mauthner (University of Stuttgart / Fraunhofer IAO);
Sandra Frings (Fraunhofer IAO); Wolf Engelbach (Fraunhofer IAO);
Łukasz Szklarski (ITTI Sp. z o.o.); Piotr Gmitrowicz (ITTI Sp. z o.o.); Yann Semet
(Thales Research & Technology); Frank Wilson (Stichting Studio Veiligheid SSV);
Jean-Paul Pignon (Thales Communications & Security SAS)
- P 19** **Networked IT-Security for Critical Infrastructures - The Research Agenda of VeSiKi**
Sandra Bergner (Bundeswehr University Munich); Benedikt Buchner (Universität
Bremen); Sebastian Dännart (Bundeswehr University Munich); Albrecht
Fritzsche (FAU Erlangen-Nürnberg); Andreas Harner (VDE|DKE); Sophia Harth (VDE|DKE);
Max Jalowski (FAU Erlangen-Nürnberg); Dennis-Kenji Kipker (Universität Bremen);
Ulrike Lechner (Bundeswehr University Munich); Kathrin Möslin (FAU Erlangen-
Nürnberg); Andreas Rieb (Bundeswehr University Munich);
Martin Riedl (Bundeswehr University Munich)
- P 20** **Mobile Units for Characterization of Sites contaminated by Accidents**
Thomas Streil (SARAD GmbH); Veikko Oeser (SARAD GmbH)

FRAUNHOFER VVS

This conference series is hosted by the Fraunhofer Group for Defense and Security VVS.

Member institutes are the Fraunhofer Institutes for

- Applied Solid State Physics IAF
- Chemical Technology ICT
- High Frequency Physics and Radar Techniques FHR
- Communication, Information Processing and Ergonomics FKIE
- High-Speed Dynamics, Ernst-Mach-Institut, EMI
- Technological Trend Analysis INT
- Optronics, System Technologies and Image Exploitation IOSB

- Integrated Circuits IIS (Guest member)
- Telecommunications, Heinrich-Hertz-Institut, HHI (Guest member)
- Systems and Innovation Research ISI (Guest member)

www.vvs.fraunhofer.de

CHAIRMAN OF THE GROUP

Prof. Dr.-Ing. habil. Jürgen Beyerer

Fraunhofer Institute of Optronics, System Technologies and Image Exploitation IOSB
Fraunhoferstraße 1
76131 Karlsruhe, Germany
Phone +49 721 6091-210
juergen.beyerer@iosb.fraunhofer.de

DEPUTY CHAIRMAN OF THE GROUP

Prof. Dr. Peter Martini

Fraunhofer Institute of Communication, Information Processing and Ergonomics FKIE
Fraunhoferstraße 20
53343 Wachtberg, Germany
Phone +49 228 9435-287
peter.martini@fkie.fraunhofer.de

MANAGING DIRECTOR

Caroline Schweitzer

Fraunhofer Institute of Optronics, System Technologies and Image Exploitation IOSB
Gutleuthausstraße 1
76275 Ettlingen, Germany
Phone +49 7243 992-361
caroline.schweitzer@iosb.fraunhofer.de

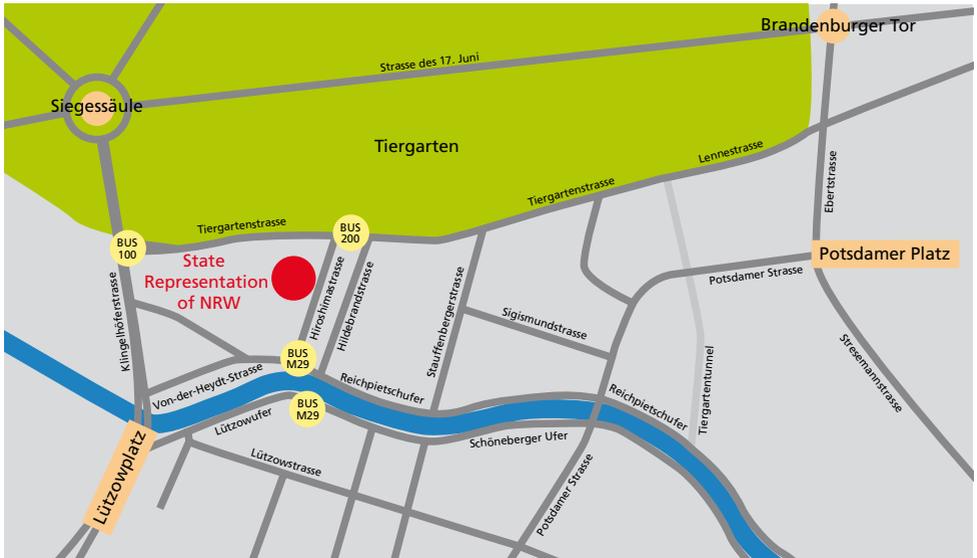

VENUE

Vertretung des Landes
Nordrhein-Westfalen
beim Bund

Permanent Representation of North Rhine-Westphalia to the Federal Republic of Germany

Hiroshimastrasse 12-16
10785 Berlin-Tiergarten, Germany

10TH FUTURE SECURITY
SECURITY RESEARCH CONFERENCE
BERLIN, SEPTEMBER 15-17, 2015

GENERAL INFORMATION

REGISTRATION AND OPENING HOURS

The registration desk is open and entry to the conference venue is possible during the following times:

Tuesday, September 15, 2015:	8:00 – 20:00
Wednesday, September 16, 2015:	8:30 – 17:00
Thursday, September 17, 2015:	8:30 – 15:00

CONFERENCE FEES

Regular	700,00 €
Speaker	550,00 €
Students (Copy of Student ID required)	200,00 €
Ministries	200,00 €

These fees include coffee breaks and lunch buffets, the welcome reception on September 15, 2015, and the conference dinner on September 16, 2015.

CONFERENCE PROCEEDINGS

The conference proceedings will be printed and published by Fraunhofer Verlag with ISSN 2364-3986 Security Research Conference and ISBN 978-3-8396-0908-8.

ORGANIZATION

Conference Chairman

Prof. Dr.-Ing. habil. Jürgen Beyerer
